

KENT CHRISTIAN E. CAGADAS

Address: PCH - 1, Damilag, Manolo Fortich, Bukidnon
Phone: 0997-795-8002
Email: kentchristiancagadas@gmail.com

SUMMARY

Web Developer specializing in full-stack development and scalable web application architecture, with a strong foundation in Database Systems. Experienced in building high-performance applications using Next.js, React, Django, and REST APIs within agile sprint environments. Skilled in micro-frontend architecture, risk management dashboards, and white-label frontend systems. Brings added strength in technical documentation and Docs-as-Code practices to ensure maintainable, well-structured, and production-ready solutions.

EDUCATION

B.S. in Information Technology, Database,, 2019-2025
University of Science and Technology of Southern Philippines (USTP)
Capstone Project: Appointment Booking System for Student-Teacher Consultations

WORK EXPERIENCE

Technical Writer January 2026 - March 2026
Cytech International, Unit 503A, 5th Floor, SM CDO Downtown Tower Corner

- Established centralized MkDocs documentation platform with multi-version support and structured asset management.
- Implemented Docs-as-Code workflows using Markdown to maintain consistent, version-controlled technical content.
- Leveraged AI-assisted drafting workflows to accelerate production while preserving accuracy.
- Delivered weekly engineering documentation aligned with sprint objectives, collaborating closely with developers and stakeholders. Department — involved data organization, scheduling workflows, and structured reporting.

Web Developer October 2025 - March 2026
Cytech International, Unit 503A, 5th Floor, SM CDO Downtown Tower Corner

- Refactored frontend scanning architecture to support concurrent multi-target API requests, improving batch processing efficiency.
- Engineered centralized Axios client with reusable hooks for secure API communication across micro-frontends.
- Integrated legacy modules into modern micro-frontend architecture while preserving shared configuration stability.
- Built white-label theming system to support multi-tenant branding without impacting shared UI behavior.
- Developed strategic UI components, reusable Storybook patterns, and advanced data visualization charts for risk analysis and business reporting.
- Designed and implemented RESTful APIs using Django for secure data exchange and internal financial/risk-tracking workflows.
- Configured Docker-based development environments and mock data pipelines to standardize team workflows and accelerate rapid demo platforms.
- Built and maintained a risk management dashboard aligned with incident response tracking, mitigation workflows, and cybersecurity-focused modules.
- Optimized frontend build pipelines (Next.js ecosystem) to improve production performance and reliability.
- Delivered demo-ready platforms in 1-week sprint cycles, debugging frontend-backend integration issues to stabilize builds.

Research & Development Intern February 2025 - April 2025
Logicbase Interactive

- Developed an OJT Monitoring System with real-time notifications, logging, and printable reports, improving tracking efficiency for supervisors.
- Assisted in UI/UX prototyping and application interface design to enhance user experience.
- Created multimedia content (video editing, graphics) for internal and project use.
- Supported research and documentation for development workflows.

Skills	
Technical Skills	Soft Skills
- JavaScript, PHP, Python, Java; - Next.js, React, Laravel, Django, Zustand, TanStack React Query; - Micro-Frontend Architecture (MFE), REST API Development, Storybook, MkDocs, pnpm, Rsbuild, Docker; - MySQL, PostgreSQL; - Git, GitHub, GitLab, Vercel, GitHub Pages; - OpenProject, Trello; - IP Addressing, VLANs, ACLs, Firewall Setup, Cisco Router & Switch Configuration; - Technical Writing, Docs-as-Code, Markdown	- Problem Solving - Collaboration - Time Management - Technical Communication

Certifications
Problem Solving and Innovation Wadhwani Foundation (2025), Impactful Writing Skills - Wadhwani Foundation (2025), Introduction to ITIL V4-Simplilearn (2025), CCNAV7: Introduction to Networks - Cisco Networking Academy (2021), Techstars Startup Weekend - USTP, Cagayan de Oro (2023)
